- Languages: Russian, Ukrainian

EDUCATION

WEB DEVELOPMENT IMMERSIVE, *Galvanize, New York, NY*

Sept. 2018

- Completed 1300 hour, 6 month web development immersive focused on project driven and team-based learning.
- Class topics included: Linux Shell/git/github, HTML, CSS, Vanilla JavaScript, AJAX, Node.js/Express, SQL, Postgres, React, Agile Workflow/Collaboration, and Computer Science.

Notable Projects

- **DEV RECIPE** – created full stack app for users to store, sort, and organize meal recipes; developed features for users to input name, ingredients, instructions, prep time, and characteristics, including gluten-free, dairy-free, and vegetarian, for each recipe; utilized JavaScript, HTML, CSS, Bootstrap, AJAX, HEROKU, and Firebase.
- **ANTEUP** – built peer to peer friendly wager app allowing friends to make bets and enforce agreed upon rewards or punishments; users are able to log in via Facebook, send bet requests, view bet status, and invite other friends to vote on the winner; utilized React, Node, Express, HTML, CSS, and Facebook API.
- **CODETUBE** – developed app to help users learn and gain an advanced understanding of AWS, React, JavaScript and Coding Garden; created intuitive navigation that allowed users to organically explore related topics through YouTube videos; utilized HTML, CSS, JavaScript, React, Reactstrap Now, You Tube API, Fetch, and Google Cloud Console.
- **WEB MAP** – developed web app to help users locate popular restaurants, bars, and nightclubs around them with interactive Google Map; utilized HTML, CSS, JavaScript, Firebase, Google Cloud Console APIs, Google Maps, Fetch, and Bootstrap.

PROFESSIONAL EXPERIENCE

EVENT VOLUNTEER, *500 Startups*

2018 – Present

- Partnered with leadership of venture capital firm to provide support for large startup and tech-oriented events across NYC; contributed to event setup and tear-down, manned registration tables, accompanied special guests and speakers, communicated issues and updates with event leadership, and ensured event logistics ran smoothly.

LEGAL ASSISTANT, *Jurimex Law Firm*

2014 – 2015

- Provided administrative and legal support to large international firm with over 100 attorneys; worked with team of attorneys and legal assistants to closely review and analyze all case-related documents; singled out impactful documents to attorneys, assisted in drafting legal documents, and accompanied attorneys to court to assist with court proceedings, organized and presented prepared documents, and provided ad-hoc support.
